

Student's Name: Margaret Kuei Dhor
Reg No: MBA/SCH/001/21

Date: 1st August 2023

Department: EFA

School: School of Business and Economics

Comments from External Examiner

1. Abstract; needs some modification, bring out clearly the opening statement.
2. Separate the abbreviations and acronyms.
3. Edit your work
4. Introduction, chapter one; are you looking at investment strategies or practices or conditions. How did you indicate in the definition of terms?
5. Background of the study, explain the terms, it does not provide the genesis of the problem. Rework on your background.
6. Section 1.3, rewrite. State the ideal situation, which is financial performance of insurance firms, bring in evidence of the investment practices. Statement of problem is too brief,
7. Review objective number 1 to read examine instead of determine.
8. Section 1.7; did you collect data on justification
9. Limitations of your study are not clear, time and money are not limitations, bring in the intervention measures.
10. Chapter 2; what are the theories that are supporting your work, who is the proponent of new classical theory and the relevance of the theories to your study. State the proponents of the theory.
11. Chapter 3; there are unnecessary citations which you have not explain.
12. Page 38, Table 3.2 is repeated.
13. Page 39; did you use secondary data, for financial performance it would have been easier.
14. Data analysis and discussion and response rate. How did you go about 7 non response rate? This is misleading, it cannot be 100%

Comments from 1st Internal Examiner

1. Look at the method of sampling procedure.
2. Which validity test did you use?
3. Page 65, table 4.10, illustrate whether your statements in table, are the results significant and at which level, is it less or greater than 0.05%. The entire table on p value all the results are not significant.
4. What font did you use on page 65? Check on the method that is used to test the moderating variable.

Kibabii University ISO 9001:2015 Certified
Knowledge for Development

5. Work on chapter 4. The heading is not in line with the SGS manual. And all the other chapters.

Comments from 2nd Internal Examiner

1. Why choice of Juba county?
2. Edit top page to reflect the correct MBA option.
3. Beef up your abstract to one page.
4. Include conclusions and recommendations in the abstract

Comments from panellists

1. What was the problem that you were investigating? Recast the statement of your problem.

N/B: Please ensure to also use the comments provided by the examiners in their reports to make corrections to your thesis.
