

PTSD Corrections

Social Demographics

Among the respondents included in this study, the majority were women (60%) while men comprised less than half of all respondents (40%). The majority of the respondents were between the ages of 26 and 35 (36%) followed by respondents between 18 and 25 years old (34%), respondents above 36 years comprised 30% of all respondents. Most of the respondents were married (71%) followed by single people (23%) while only 20 respondents were widowed persons (6.1%). All the respondents included in this study had been in the camp for less than 5 years. Regarding highest education levels achieved by the refugee respondents, majority had primary school education at 47% followed by those without any schooling years (31%) while 21% had secondary school education and only 3 individuals making 0.9% of the respondents had attained university education level. The results are as illustrated in Table 1

Table 1: social demographic factors

Social Demographic Factors	Frequency (%) ^t
Gender	
Male	131 (40%)
Female	196 (60%)
Age	
18-25	112 (34%)
26-35	118 (36%)
36-45	61 (19%)
46-59	36 (11%)
Marital_status	
single	74 (23%)
married	233 (71%)
widow or widower	20 (6.1%)
Camp_period	
below 5 years	327 (100%)
Education Level	

None	102 (31%)
Primary school	154 (47%)
secondary	68 (21%)
university	3 (0.9%)
